

ILS Products Committee Report 2020-21

In the words of one of our committee members, “I guess the things I remember most are that when we met, we got updates about system updates and potentially new products, we shared information about how different libraries were using products and implementing new technologies, and whether any or all of the updates, products and new implementations were working well, or not so well.”

That statement summed up our year fairly well, so this is our annual report.

Thank you to all our committee members who attended our meetings and shared input. I know your time is valuable and appreciate you taking on this extra responsibility.

Respectfully submitted,
Linda Herget
