Over the past year the committee evaluated and updated the Circulation Competency checklist and the Enterprise Competency Checklist. The group agreed that the skills checklist should be removed for the no-longer-being supported classic catalog.

Because the group doesn't actually do training, we were fumbling a bit with what we should be doing and/or what was expected besides updating the checklists. In order to clarify what the group should be doing, we sought some direction from the State Library. Kate Mutch attended the COSUGI conference and while there garnered some ideas for how the training committee can move forward with highlighting and/or promoting some training tools that already exist.

The State Library indicated that it would be helpful to have a database of Wyoming "experts" and the group plans to address that in the upcoming year.

We will continue to work with WSL and the WYLD governing board on meeting the needs of WYLD.
