Wyoming Public Library Statistics FY12

(July 1, 2011 to June 30, 2012)

About the statistics:

Statistics are collected from more than 9,000 public libraries, through the Public Library Statistics Cooperative (PLSC) for Public Library Data. A public library is defined as having: 1) an organized collection of library materials; 2) paid staff; 3) an established schedule when it is open to the public; 4) facilities that support the collection, staff, and schedule, and 5) full or partial support form public funds.

Each of Wyoming's 23 counties has a public library system serving all county residents. There were 23 main libraries, 53 branch libraries and 2 bookmobiles. These libraries report their statistics annually to the Wyoming State Library, which submits it to the PLSC.

Because Wyoming's counties vary widely, statistics have been arranged in order of county population for comparison. Where appropriate, per capita measures have been included. Although these statistics allow for comparisons among libraries, caution should be exercised when interpreting them. Local needs, economies, geography and library policies differ, and that can be reflected in the numbers.
