#### **AT YOUR LEISURE - Pre-recorded webinars to view at your convenience**

**Trustee Trouble 7 (Wyoming State Library)** <https://www.youtube.com/watch?v=jE8u5XkLvGk>: Library Board membership is a great way to give back to the community and the library. Sometimes that first year on the board is tough, there is a lot more to being a library board member than you might think. In this series of episodes, laugh and learn along with Dan, a new library trustee, as he muddles through his first year on the library board. We suggest viewing one episode per month and then as a group, discuss the episode and answer the questions asked at the end of the segment.

#### **Transgender Inclusion in Libraries (iSchool @San Jose State University)**

<https://ischool.sjsu.edu/webcasts/transgender-inclusion-libraries> : This webcast will share a basic understanding of the rich variety of gender identities and experiences, best practices for working with transgender patrons and communities, and tips on where to begin thinking about the impact of library policies on queer and transgender people. Participants will be introduced to trans-inclusive language and basic concepts of gender and sexuality, improved services for transgender patrons, and the opportunity to move beyond basic respect and inclusion to affirmation and representation.

**Green Screen Tech (North Dakota State Library)** <https://www.youtube.com/watch?v=bG5Hd-pdoR4> : This presentation at Renewal and Development 2019 is on Green Screen Tech. The wonderful presenter walked participants through the different options for using a green screen and how to properly use it. Then she let them work with green screens in the presentation.

#### **From Virtual Reality to Blockchain: Current and Emerging Technology Trends (New Jersey Library Cooperative)**

<https://bit.ly/2GSjrHP> : This webinar will provide an overview of several trends that are currently important or expected to have a significant impact in the near future, such as 3D printing, 3D modeling, virtual reality, machine learning, artificial intelligence, blockchain, and edge computing. During the webinar, attendees will be encouraged to brainstorm the opportunities and challenges new technology trends may bring to libraries and beyond, and to share their ideas.

**People - Difficult or Different? (Effectiveness Institute)**

Why are some clients or co-workers so frustrating to work with? Or more importantly, why would anyone think of YOU as a difficult person? For example, isn't it irritating when the person across the desk or on the phone can't seem to ever make a decision... or makes a snap decision only to change it a day later? In this interactive and engaging Webinar, you will discover why "different" does not have to mean "difficult." Then you will learn the magic of making slight adjustments in your awareness and behavior that will have a significant impact on your ability to "click" with customers and co-workers.

**Teaching iPad and iPhone to Seniors (Indiana State Library)**

Seniors are highly motivated to learn to use devices, but have few opportunities to attend classes that address their needs to use. Most are unaware of how these devices can connect them to the free library services of Hoopla, Freegal, Libby (Overdrive) and their local online catalogs. This presentation will include an outline of what can be taught in five 90-minute classes. Highlighted will be the 20 apps every senior needs to know and practical advice on such topics as: Offering classes outside of the library, fee-based classes and limiting class sizes.

**From Silo to Hub: Seizing Opportunities to Drive Change (Georgia Library Association)**

In 2016, the De Paul Library at the University of Saint Mary won the Steelcase Education Active Learning Center Grant, building on a librarian-driven change movement for the overall library space and vision. Focusing on building connections to the overall learning environment on campus, librarians partnered with faculty to develop active learning resources, training opportunities, and a circulating technology collection. This year, the university reorganized several student support functions under the umbrella of the Keleher Learning Commons, building on the library's goals toward holistic support for student success. This session will share lessons learned while undergoing major transitions in the vision of the library on campus and navigating physical and organizational changes, as well as early impacts and outcomes.

**Fostering Accountability: Media Literacy in the Classroom (Teachers First)**

As digital media increasingly replaces traditional media, students must have the skills to think critically about these new types of texts. Media literacy – the ability to skillfully read and write in a wide range of message forms – allows students to identify themes and issues emerging from popular culture. Media literacy standards have been incorporated across content areas and grade levels in all 50 states. Join us to learn more about this information age survival skill.

**NCompass Live: Let's Get Real About Virtual Reality (Nebraska Library Commission)**

When Chadron State College began collaborating on virtual reality, they had hardware and software in a space that was small and out of the way, and little idea of what to do with it. We will discuss some of the primary challenges we faced, how we identified areas of our mission to which VR could contribute, and how we connected with our most helpful allies in other staff and faculty. We hope to provide some insight on how smaller libraries can integrate VR, or any newer technology.

**Tools for Data-Powered Discovery: NLM's Data Discovery and Pillbox (National Network of Libraries of Medicine)**

As the National Library of Medicine transitions to become a platform for biomedical discovery and data-powered health, one area of focus is building a workforce for data-driven research and health. In support of this strategic goal, NLM launched Data Discovery, an online platform for making data findable, interoperable, accessible, and reusable (the FAIR principles). Pillbox, NLM's pill identification and reference resource, long overdue for redesign, was rebuilt using Data Discovery as its foundation to showcase the power of this platform.
