**Empathy: The Secret Sauce in Effective Diversity, Equity and Inclusion (Charity Village)**

Empathy is our first point of meaningful connection to diversity, equity and inclusion (DEI) efforts. We think back to instances when our clients have faced barriers and biases, or times when people close to us have been excluded, or our own experiences of feeling that we didn’t belong, and these narratives became the fuel for driving the work forward. But what if we’re only scratching the surface? What if we reconsider empathy as an important skill for effective DEI design, development, and implementation? This webinar explores these questions and shows us how different ways of thinking about empathy can help sweeten the sauce, and bring about more impactful DEI.

**Is it Time to Scrap the C.R.A.A.P. Test? Using Formative Assessment to Improve Students’ Resource Selection Skills (edWeb.net)**

Distinguishing truth from disinformation is only a small part of a larger problem. Students frequently rely on shallow reference materials as core sources for research, treat 2-minute news clips as in-depth journalism, and fail to distinguish between reportage and opinion articles. Lecturing students about these shortcomings rarely
helps, but providing meaningful feedback on research checkpoints (e.g., research questions, works cited lists, and thesis statements) can be instructionally effective. Join Michelle Luhtala as she shares replicable lessons and instructional materials to help learners improve their inquiry skills.
