Open Together: School Librarians as Community Activators (EveryLibrary): Librarians bring communities together, and never has that been more important than in this time of physical distancing. Create social togetherness from your virtual school library by connecting with public library partners, offering engaging and enriching programs, and celebrating the local. Your virtual presence can still be the heart of the school even when the building is closed. https://tinyurl.com/y7f2ucyt Slides

Open for the Future: School Librarians as Planners and Preppers (EveryLibrary): School librarians can begin planning now for a changed role within the new normal of schools. How will physical spaces and collections need to be modified to deal with ongoing viral threats? What are reasonable preparations to make in the face of the need to return to a quarantine situation in the future? And where should we see ourselves in this emerging situation? Let’s look at reasonable scenarios and plan together for the success of school librarians in any future. https://tinyurl.com/yd6vupqt Slides

5 Ways To Lead In An Era Of Constant Change (TED Talk). Organizational change expert Jim Hemerling thinks adapting your business in today's constantly-evolving world can be invigorating instead of exhausting. He outlines five imperatives, centered around putting people first, for turning company reorganization into an empowering, energizing task for all. https://bit.ly/2X8ukgB

**Bringing Students Back to the Page: Using Digital Resources to Accelerate Learning (edWeb.net)**

Prior to school closures, many American students were not reading enough to get to proficient literacy levels. In our current reality, this number is even greater. For some students, access to high-quality texts may have decreased more over the past months. As instruction has turned remote, educators can lean on digital resources to serve as a means for ensuring that all students get the exposure to the texts they need. This presentation will describe how digital resources can serve as a bridge to accelerate learning and bring students “back to the page.”

**What Resilient Companies Do Differently (Harvard Business Review)**

Even before COVID-19, Wall Street analysts were speculating about when the next recession would begin. Warning signs included ballooning corporate debt and slowing GDP growth in China. And then came COVID-19. Now, economists are wondering how bad this recession will be and how long it will last. Mihir Mysore will share lessons about resilient companies from previous downturns and describe what he expects the most resilient companies to do in this downturn—which includes using digital tools and advanced analytics along with strengthening their balance sheets.
