

# WYLD Online Quality Committee Minutes

January 17, 2020

Meeting was called to order 9:30 AM.

Members present:

Chair – Eric Rossborough

Region 1 – Susan Centrella – Teton County Library

Region 2 – Eric Rossborough – McCracken Research Library

Region 3 – Kim Heaster – Crook County Library

Region 4 - Cara Dwyer – Converse County Library

Region 5 – Kennedy Penn-O’Toole – Albany County Public Library

Region 6 – Wendi Walton – Lincoln County Library

WSL Liaison - Bobbi Thorpe

1. Bobbi Thorpe discussed which catalog records are best to select from OCLC. Make sure the record you select is not an electronic or foreign language record. Select print material for items in print format. Bobbi referred committee members to the technote already posted on selecting the correct record. Technote: SmartPort – 1st Record is not always the best
2. Bobbi discussed the PowerPoint FRBR-ish Explained. WYLD will test FRBR-ish display for Enterprise that will include listings for multiple formats for single titles at the hitlist level. Examples of possible displays from other libraries were provided.
3. Bobbi announced that the United States ISBN Agency will soon begin assigning ISBNs with the prefix element 979. This is necessary because the inventory of certain ISBN block sizes starting with 978 is starting to dwindle. You may start to see ISBNs with the 979 prefix as early as January 2020.
4. Minimum tags for order records were discussed.
5. Committee members will contact catalogers in their regions to present the information gleaned from this meeting. Members will contact catalogers prior to our next meeting to ask for discussion topics.
6. The next meeting is tentatively set for Mid-May. Eric will contact WYLD President Kate Mutch to find out if there are bylaws on how often we should meet.
7. Meeting adjourned at 10:03 AM.
