Promoting GoWYLD Resources in Your Library

Every month, the Wyoming State Library will email a complete mini-marketing kit with ready-to-print posters and a tailored message to send out to your staff or students. Each month will celebrate and promote a featured resource. January's promotion is the Computer Skills Center in GoWYLD.net.

KidRex Search Engine for Kids is a search engine for young children, designed to provide safe results for early researchers. Easy to use with a fun interface.

Feel free to share this with other Wyoming school library staff members. If they are not on the Wyoming Library Association School Library mailing list, encourage them to sign up for emails. I would be happy to add their name to the list and visit with you about your school library program and how the State Library can support or assist you. See my contact information above.
