

## Assistive Technology Regional Training

---

### ABOUT WYOMING AEM & WATR

The Wyoming AEM Clearinghouse works with school districts across the state to provide accessible educational materials to students with print disabilities.

Wyoming Assistive Technology Resources (WATR) is Wyoming's Assistive Technology Act program and a resource for all assistive technology (AT) needs in Wyoming. AT may be a device or solution that enhances an individual's ability to live, play, or work independently. AT can take the form of a device, tool, or adaptation that supports a person when participating in everyday activities and settings.
